JumpCloud Partner University

JumpCloud is dedicated to enabling and educating its Partners on the JumpCloud Open Directory Platform and how to sell it. Follow this step by step guide to getting enabled through JumpCloud Partner University!

Step 1

Create a JumpCloud Partner University Account

Head to partnerjcu.jumpcloud.com and to sign in. You will be prompted to fill in your username and password or login with OpenID Connect. If you have an existing JumpCloud Administrator account, select login with OpenID Connect. You will then be redirected to sign in with your JumpCloud administrator credentials. After you sign in, you will then be asked for consent by JumpCloud Partner University to utilize your information for SSO sign in. Select Allow and your new JumpCloud University account will be provisioned.

If you do not have access to a JumpCloud administrator account, please reach out to partner-university@jumpcloud.com or contact your Partner Account Manager.

Step 2

Enroll in Learning Paths

As a JumpCloud Partner, you have access to our Partner Learning Paths, a curated collection of courses that cover several key aspects of administering and selling the JumpCloud platform. To access the Partner Learning Paths, navigate to the **Catalog**. You can then filter by **Content Type** and select **Learning paths**. Select the learning path(s) that are most suitable to your role and educational goals, and select **Enroll**. Once enrolled, head to **My learning** and you will see all the courses you have been enrolled in within that associated learning path(s).

LEARNING PATH

Step 3

Complete Partner Certifications

JumpCloud Partner University offers two certifications catered to Partners for free.

If you are a Sales Professional that will be selling JumpCloud to your end clients, enroll in the **Sales Professional Certification** learning path where you will learn how to present the business benefits of the JumpCloud platform.

If you will be deploying or administering the JumpCloud Platform for your clients, enroll in the **JumpCloud Certified Admin** learning path to gain the foundational knowledge required for implementation, daily operations, and support.
